Key skills and characteristics

- Proficient in web-based technologies, **JS/TS**, frameworks such as **React/Vue**
- Proficient in **CSS preprocessors/frameworks/component libraries**
- Proficient in distributed version control systems (**Git and GitHub**)
- Expertise in web fundamentals: navigating REST servers, handling HTTP requests, managing web interactions
- CI/CD integration via **Jenkins/CircleCI/GitHub Actions**
- Component and e2e testing via **Cypress/Jest**
- Implementation and storage of **web components,** and VSCode extensions
- Capable of transitioning to backend tasks as needed (**NestJS/Express)**

Prior experience

JavaScript Developer @ Endava | Cluj-Napoca | 2021 –

- Had the opportunity to work with some major clients active in industries such as **real estate**, **healthcare**, and **MCU manufacturing**, discovering interesting new tech stacks
- Created a wide array of customizable web components to be integrated in multiple places of the real estate company website
- And outside of it, across advertising and publicity platforms. These components were instrumental in enhancing user engagement and optimizing marketing campaigns
- Maintained a dynamic 'price map', plotting real estate prices for various regions/districts/counties within a country
- Implemented improvements to enhance data accuracy, visualization, and user interaction to the above-mentioned 'price map'
- Currently developing a tool tailored to assist embedded developers. The tool aims to streamline development workflows, employing a user-friendly GUI, that simplifies complex tasks
- The UI seamlessly adapts its theme to the user's selected theme within the VSCode environment, ensuring cohesive and personalized experience
- After integration to the VSCode ecosystem, the extension will be publicly accessible on the marketplace, providing convenient access

Education and certifications

- Tiberiu Popoviciu High School of Computer Science | Cluj-Napoca | 2014 – 2018
- Babes-Bolyai University – Business Information Systems | Cluj-Napoca | 2018 - 2021
